# Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

## CONTRAST

|                                                                                                                                                             |   |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|---|
|  Background and foreground colors do not have a sufficient contrast ratio. | ▼ |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|---|

These are opportunities to improve the legibility of your content.
